The Commander-in-Chief has forbidden continuation of the salvaging of goods in short supply from the evacuated territories by Norwegian police forces with Norwegian private individuals and at the same time ordered that salvaging is to take place through offices of the Army and the Navy.

Headquarters Army-Narvik Branch is made responsible for the execution of the action and is to effect liaison with Admiral of the Polar Coast and the Office of Reich Commissioner in Tromsoe, accordingly.

It occurs to the Commander-in-Chief that in this way, a return of the local inhabitants may be prevented and they will get no further insight into the evacuated territories. (Cn. handwritten)
